

## Customizable Beverage Filter Cartridge For Food Industry 4-60 Degrees Celsius Flow Rate Depends On Filter Media And Size

Our Product Introduction

for more products please visit us on wechanfib.com

### Basic Information

- Brand Name: WECHANFIB
- Model Number: WF-PL-0045-10-AS
- Minimum Order Quantity: 100PC
- Price: Negotiate
- Delivery Time: 15-24 days
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram

### Product Specification

- Diameter: 2.5-4.5 Inches
- Product Type: Filter Cartridge
- Micron Rating: 0.5-5 Microns
- Membrane Material: PTFE
- Effective Filtration Area:  $\geq 2.04\text{m}^2/30''$
- Filtration Area:  $\geq 12\text{m}^2/40''$
- Core: Polypropylene, Stainless Steel
- Pressure Drop: Depends On Filter Media And Size
- Highlight: Food Industry Beverage Filter Cartridge, Customizable Beverage Filter Cartridge

### Product Description

#### Product Description:

Our filter cartridge is made of high-quality polypropylene material, which ensures its durability and reliability over time. It is built to last, providing you with the best value for your investment. The filter cartridge is designed to operate at temperatures between 4-60 degrees Celsius, making it suitable for use in a wide range of industrial environments.

The Food Beverage Filter Cartridge is a high flow filter cartridge that is ideal for use in the food and beverage industry. It is designed to remove impurities and contaminants from liquids such as water, beer, wine, and other beverages. The filter cartridge is designed to provide superior filtration performance, ensuring that your products are of the highest quality and meet all the required standards.

The filter cartridge is also suitable for use as an industrial air filter cartridge, providing reliable and efficient filtration of air. It is designed to remove dust, dirt, and other contaminants from the air, creating a safe and healthy working environment for your employees. The filter cartridge is easy to install and maintain, ensuring that your operations run smoothly and efficiently.

The Food Beverage Filter Cartridge features a PTFE membrane material, which provides superior filtration performance and ensures the longevity of the filter cartridge. The PTFE membrane material is known for its excellent chemical and thermal resistance, making it ideal for use in a wide range of industrial applications.

The filter cartridge is available in lengths ranging from 10-40 inches, making it suitable for a wide range of industrial applications. Whether you need to filter liquids or air, our Food Beverage Filter Cartridge is the perfect solution for your industrial filtration needs.

Overall, our Food Beverage Filter Cartridge is a reliable, efficient, and cost-effective solution for your industrial filtration needs. It is designed to provide superior filtration performance, ensuring that your operations run smoothly and efficiently. Whether you need to filter liquids or air, our filter cartridge is the perfect choice for your industrial filtration needs.

Our Product Introduction

## Features:

Product Name: Food Beverage Filter Cartridge  
Product Type: Cartridge Filter  
Length: 10-40 Inches  
Effective Filtration Area:  $\geq 2.04\text{m}^2/30''$   
Pressure Drop: Depends On Filter Media And Size  
Operating Temperature: 4-60 Degrees Celsius  
Features: High Flow Filter Cartridge

## Technical Parameters:

Product Attribute	Value
Product Type	Cartridge Filter
O-Ring Material	EPDM, Silicone, Viton
Core	Polypropylene, Stainless Steel
Effective Filtration Area	$\geq 2.04\text{m}^2/30''$
Membrane Material	PTFE
Diameter	2.5-4.5 Inches
Operating Temperature	4-60 Degrees Celsius
Micron Rating	0.5-5 Microns
Filtration Area	$\geq 12\text{m}^2/40''$
Pressure Drop	Depends On Filter Media And Size

## Applications:

The WECHANFIB WF-PL-0045-10-AS Food Beverage Filter Cartridge is an ideal solution for air filtration in the food and beverage industry. The product ensures that the air quality is maintained at all times and that the air is free from any contaminants. The cartridge filter is also suitable for industrial air filter cartridge applications, where it can effectively remove impurities such as dust, dirt, and other harmful particles from the air.

The WECHANFIB WF-PL-0045-10-AS Food Beverage Filter Cartridge is designed to meet the needs of various scenarios. The cartridge filter can be used in food processing plants, breweries, wineries, and other food and beverage manufacturing plants. The product is also suitable for use in pharmaceutical production facilities where a high level of air filtration is required.

The core of this filter cartridge is made of polypropylene or stainless steel, which ensures that the product is durable and long-lasting. The use of PTFE membrane material ensures that the filter cartridge is resistant to high temperatures and harsh chemicals, making it suitable for use in various applications. With its ease of installation, the WECHANFIB WF-PL-0045-10-AS Food Beverage Filter Cartridge is an ideal solution for industries looking for a reliable and efficient cartridge filter.

In conclusion, the WECHANFIB WF-PL-0045-10-AS Food Beverage Filter Cartridge is a highly effective filter cartridge suitable for various applications. Its membrane material, core material, and ease of installation make it an ideal solution for industrial air filter cartridge applications. It is designed to meet the needs of various scenarios and is an ideal solution for the food and beverage industry.

## Customization:

## Support and Services:

The Food Beverage Filter Cartridge product is designed to provide high-quality filtration for food and beverage applications. Our technical support and services include:

- Assistance with installation and setup
- Product troubleshooting and maintenance support
- Filter cartridge replacement and disposal guidance
- Filter performance optimization recommendations
- Customized solutions for unique filtration needs

Our team of experts is dedicated to ensuring that our customers receive the best possible support and service for their filtration needs. Contact us for more information.

## Packing and Shipping:

Product Packaging:  
Each filter cartridge is individually packaged in a plastic bag.  
Multiple filter cartridges are then packed in a sturdy cardboard box.  
The box is labeled with the product name, quantity, and manufacturing date.

Shipping:  
The packaged filter cartridges are placed in a shipping box.  
The shipping box is labeled with the recipient's address and contact information.  
The box is sealed securely with tape to prevent any damage during transportation.  
The package is then shipped using a reliable courier service.

## FAQ:

A: The brand name of this filter cartridge is WECHANFIB.

Q: What is the model number of this filter cartridge?

A: The model number of this filter cartridge is WF-PL-0045-10-AS.

Q: Where is this filter cartridge made?

A: This filter cartridge is made in ROC (Republic of China).

Q: What is the micron rating of this filter cartridge?

A: This filter cartridge has a micron rating of 10 microns.

Q: What type of food and beverage applications can this filter cartridge be used for?

A: This filter cartridge can be used for a variety of food and beverage applications, including water filtration, juice filtration, and wine filtration.
