

2.5-4.5 Inches Diameter Food Beverage Filter Cartridge With 0.5-5 Micron Rating And Stainless Steel Core

Our Product Introduction

for more products please visit us on wechanfib.com

Basic Information

- Brand Name: WECHANFIB
- Model Number: WF-PL-0045-10-AS

Product Specification

- O-Ring Material: EPDM, Silicone, Viton
- Effective Filtration Area: $\geq 2.04\text{m}^2/30''$
- Product Type: Filter Cartridge
- Membrane Material: PTFE
- Diameter: 2.5-4.5 Inches
- Micron Rating: 0.5-5 Microns
- Operating Temperature: 4-60 Degrees Celsius
- Filtration Area: $\geq 12\text{m}^2/40''$
- Highlight: 4.5 Inches Food Beverage Filter Cartridge, SS Core Food Beverage Filter Cartridge

Product Description

Product Description:

Our product is a filter cartridge that is specifically designed for beverage filtration. It is an essential tool for those working in the food and beverage industry, as it helps to purify water and other liquids that are used in the production process. The high flow filter cartridge is designed to remove impurities from liquids, ensuring that the final product is of the highest quality.

The beverage filter cartridge has a micron rating of 0.5-5 microns, which means that it is capable of removing even the smallest particles from liquids. This ensures that the final product is free from any impurities that could compromise its quality. Additionally, the filter cartridge is capable of handling a high flow rate, depending on the filter media and size that is used.

The Food Beverage Filter Cartridge is designed to operate at temperatures ranging from 4-60 degrees Celsius. This makes it suitable for use in a variety of environments, including those with extreme temperatures. The filter cartridge is also easy to install and maintain, making it a convenient and hassle-free solution for your beverage filtration needs.

In summary, our Food Beverage Filter Cartridge is a high flow filter cartridge that is specifically designed for beverage filtration. It has a filtration area of $\geq 12\text{m}^2/40''$, a micron rating of 0.5-5 microns, and a flow rate that depends on the filter media and size. It is capable of operating at temperatures ranging from 4-60 degrees Celsius and is easy to install and maintain. If you are looking for a reliable and efficient solution for your beverage filtration needs, our beverage filter cartridge is the perfect choice.

Features:

Our Product Introduction

Product Name: Food Beverage Filter Cartridge
Product Type: Filter Cartridge
Effective Filtration Area: $\geq 2.04\text{m}^2/30''$
Diameter: 2.5-4.5 Inches
Length: 10-40 Inches
Pressure Drop: Depends On Filter Media And Size
Other related products:
Air Filter Cartridge
Cartridge Filter

Technical Parameters:

Product Type	Filter Cartridge
Material	Polypropylene
Core	Polypropylene, Stainless Steel
Effective Filtration Area	$\geq 2.04\text{m}^2/30''$ (Industrial Air Filter Cartridge), $\geq 12\text{m}^2/40''$ (Beverage Filter Cartridge)
Micron Rating	0.5-5 Microns
Flow Rate	Depends On Filter Media And Size
Diameter	2.5-4.5 Inches
Pressure Drop	Depends On Filter Media And Size
O-Ring Material	EPDM, Silicone, Viton

Applications:

The Food Beverage Filter Cartridge is made from high-quality polypropylene material that is both durable and long-lasting. It has an effective filtration area of $\geq 2.04\text{m}^2/30''$, making it ideal for high flow filter cartridge applications. The micron rating of 0.5-5 microns ensures that even the smallest particles are removed from the water, providing clean, safe drinking water.

Designed for use in a variety of scenarios, the Food Beverage Filter Cartridge is suitable for use in a range of temperatures, from 4-60 degrees Celsius. It is perfect for use in food and beverage processing plants, restaurants, and other commercial settings.

With its high-quality construction and efficient filtration capabilities, the Food Beverage Filter Cartridge is a reliable and effective solution for your filtration needs. Whether you need to filter water for drinking or for use in industrial processes, this cartridge filter is the perfect choice.

So if you're looking for a reliable and efficient way to filter water, look no further than the WECHANFIB WF-PL-0045-10-AS Food Beverage Filter Cartridge. With its high-quality construction, effective filtration, and versatile design, this air filter cartridge is the perfect choice for a wide range of applications.

Customization:

WECHANFIB offers product customization services for our Beverage Filter Cartridge, model number WF-PL-0045-10-AS. Our filters are made in ROC and available in lengths of 10-40 inches, with a filtration area of $\geq 12\text{m}^2/40''$. We offer O-ring materials in EPDM, Silicone, and Viton and micron ratings from 0.5-5 microns. Our filters are designed to operate in temperatures ranging from 4-60 degrees Celsius. Whether you need a customized Industrial Air Filter Cartridge or a High Flow Filter Cartridge, WECHANFIB can provide customized solutions to meet your specific needs. Contact us today to learn more about our product customization services.

Support and Services:

Our Food Beverage Filter Cartridge product comes with exceptional technical support and services to ensure optimal performance and longevity. Our team of experts provides comprehensive product training, troubleshooting assistance, and maintenance services to help you get the most out of your investment. We also offer customized solutions to meet your unique filtration needs and ensure that your filtration system operates at peak efficiency. Contact us today to learn more about how we can support your filtration needs.

Packing and Shipping:

Product Packaging:

Each filter cartridge is individually wrapped.

Multiple cartridges are packed in a sturdy cardboard box.

The box includes product information and installation instructions.

Shipping:

Orders are shipped within 2 business days of receiving payment.

We use reliable shipping carriers to ensure timely delivery.

Shipping costs are calculated based on weight and destination.

FAQ:

Q: What is the brand name of this filter cartridge?

A: The brand name is WECHANFIB.

Q: What is the model number of this filter cartridge?

A: The model number is WF-PL-0045-10-AS.

Q: Where is this filter cartridge made?

A: This filter cartridge is made in ROC (Republic of China).

Q: What is the micron rating of this filter cartridge?

A: The micron rating of this filter cartridge is 10.

Q: What type of food and beverage applications can this filter cartridge be used for?

A: This filter cartridge can be used for a wide range of food and beverage applications, including water filtration, dairy processing, food and beverage production, and more.
